### **Research and Policy Insight Series**

In 2019, the Institute initiated a new series called the *Research and Policy Insight Series*. The purpose of this Series is to provide concise overview of an important security, international affairs or political economy issue, persuasive policy directions and recommendations on the best course forward. The Series, therefore, hopes to act as a decision-making tool and a call to action for non-specialist audiences such as policy leaders and change agents who are interested in studying, formulating or influencing policy. Drawing on rich evidence and practical experiences, the Series will harness diverse perspectives, both from within and outside the Institute. While all geographic regions are vital, the main focus of the papers will be on Pakistan and South Asia so that new policy ideas and proposals are generated by opinion leaders and ‘evidence accurate beliefs’ created among those who may not have yet decided where their opinions lie on an issue.
